

PROGRAM INVITATION

You're Invited to Celebrate Learning with Us!

Program 2: FUNCTIONS IN PYTHON

India's first Miss Universe Sushmita Sen, the most eligible spinster in town is planning to get married soon. She wants to do her marriage shopping from Dubai Mall, the world's biggest shopping mall. Help her to plan some happy shopping by developing an interactive program.

**NOTE: All the financial transactions are to be done in cash through AED.
So my dear data wizards make sure to have an eye at currency conversion.
You are free to use builtin, user-defined and lambda functions to perform various tasks such as tax calculation, discount and billing etc.**
